

Cover overview 2017

VGZ Goede Keuze

This overview of reimbursements is intended to easily see what types of reimbursements are included in a particular policy. The overview gives a general description of the care to which you are entitled. No rights can be derived from this overview. The policy conditions may contain further terms and conditions relating to coverage.

On the following pages, please find the budgets in the basic cover. If the reimbursement table shows a • symbol, the healthcare item is covered. The reimbursement percentage depends on the healthcare provider you selected and the basic insurance cover selected. In the VGZ Goede Keuze basic cover, we contracted a select number of healthcare providers for a number of healthcare types. More information can be found in the Reimbursement Table.

Please refer to www.aevitae.com/zoek-vgz-zorgverlener to see the healthcare providers we contracted for each care type.

For a complete overview, we recommend that you consult your policy conditions. These will always take precedence. Have a question? Feel free to call us on 0900 369 33 33 (from the Netherlands) or 0031 4557 39600 (from outside of the Netherlands). We will be happy to help you.

Reimbursement Table healthcare insurance	Basic Insurance
